

Light My Way

Audioslave

In my hour of need
On a sea of grey
On my knees I pray to you
Help me find the dawn
Of the dying day

Won't you light my way
Won't you light my way
Won't you light my way
Won't you light my way

A bullet is a man
From time to time he strays
I compare my life to this
To this I relate
And I'm willing
To listen to your answers
And I'm not ashamed
To tell you I need you today

Won't you light my way
Won't you light my way
Won't you light my way
Won't you light my way

So when I'm lost
Or I'm tired and depraved
Or when my high buller mind
Goes astray won't you light my way

Won't you light my way
Won't you light my way
Won't you light my way
Won't you light my way
