Keep The Fire Burning

Audiovision

Try to run, try to hide
I'm alone in the dangerous zone
I know it's hard, it's a fight
Time to leave yesterday behind

Memorize the word of God
I know it's the best way out
Through the shadows, into the light
I'll see the truth of my enemy's lies

We meet temptations
Don't fool yourself
We meet temptations
On and on and on again

Keep the fire burning Always on the edge Help me not to fall Keep the fire burning Race against our time

What is wrong? What is right? Give me strength, I can't sleep at night Pressure strikes harder, I go insane Feel like I'm losing the game

What are the reasons, don't have a clue Troubles coming, one day I'll be through So many things, I don't understand Keep me calm, Lord take my hand
