

Bright Lights

Audrey Horne

Soaked in fluids
And drained in the stench of kerosene
Soaked in fluids
And drained in the stench of kerosene
I will leave a light on
Drop a matchstick to tell you where I'm going
I'll burn this town down
To light up your way
Just to follow these bright lights

Soaked in fluids
And drained in the stench of kerosene
Soaked in fluids
And drained in the stench of kerosene
I will burn these bridges
Leave a dead stare
Oh, honey you deserve these flames
I'll tear this town down
Leave a road sign
Just follow this dead trail

Broken, everything is broken
We've buried the black box recorder
They'll never get the evidence
Suffocating, oh hell we are the bittersweet taste, the perfect
lie
Nothing ever changes here
Burn it down, and we'll watch it all go down in flames
Burn it down, and we'll watch it all go down in flames
Let's set the record straight, and end it all in flames

Burn this town down to light your way
Burn it down, and we'll watch it all go down in flames
Burn it down, and we'll watch it all go down
Burn this town down to light your way

Soaked in fluids
