

This Is War

Audrey Horne

Ask yourself if this is odd
World without desire
Turn the page and close the door
And vanish in the fire

We live and burn with no concern
Like starving wolves at night
Destroyers of the universe
We live that night by night

I am fuel to the fire
Flame rising higher
This is war

We will never be silent
Or divided
This is war

Burn your bridges as you go
And cut the safety wire
I will leave the dogs astray
So you resent the night

Let me take you across the ocean
(Take you across the ocean)
Let me guide you to this war
(Let me guide you)
The gods are on our trail tonight
Morning comes with a burning light
So hold your breath
'Cause there they come

I am fuel to the fire
Flame rising higher
This is war

We will never be silent
Or divided
This is war

I am fuel to the fire
Flame rising higher
This is war

We will never be silent
Or divided
This is war
