

Toxic Twins

Audrey Horne

Raging thunder, fire in the sky
Friday night and the full moon is high
Green-eyed creatures scratching at the door
Hold my drink, I'll be coming back for more

Night trasher, party crasher
We're gonna keep this train wreck going till the lights come on
Hell bender, no surrender
We just need one foot in the door
Four on the floor, just give us one foot in the door

Helter-skelter, writing's on the wall
Highs run low to the barkeeper's call
Howling wolves, we never drink alone
So don't wait up 'cause we're never coming home

Night trasher, party crasher
We're gonna keep this train wreck going till the lights come on
Hell bender, no surrender
We just need one foot in the door
Four on the floor, just give us one foot in the door

Night trasher, party crasher
We're gonna keep this train wreck going till the lights come on
Hell bender, no surrender
We just need one foot in the door
Four on the floor, just give us one foot in the door

Just give us one foot in the door
