Just wait and listen

Take me back to the year '08  
A scrawny pea just around 4'3"  
Filled with dreams and legacies  
I'm still the same girl still wearing her blue jeans  
She dreamed of being a ballerina  
And honey oh how things have changed  
Don't get me wrong, but I guess I lied cuz I'm just not that baby in  
blue jeans

I talk a lot of the future  
I like the rush take me higher  
I'm just an innocent 18 year old  
With big ass dreams

Chasing fast towards the rest of my lifetime  
I'll bring my dog and I'll carry our food  
Make it last and walk on the starlight  
Take me once, take my twice, take me all of the three times  
Take me all of the three times  
Take me all of the three times

Who is she now do you wanna know?  
She's really cool and she takes control  
Skinny jeans fit her perfect  
Not something I'd wear but she's killing it baby  
I know my younger self wouldn't approve  
I feel her judging me so hard I feel the mood  
Baby please respect the new me  
Cuz I just feel so freaking amazing

10 years ago I would never  
I'd never think I'd be higher  
Who knows what trouble will lie up ahead  
Lie up ahead

Chasing fast towards the rest of my lifetime  
I'll bring my dog and I'll carry our food  
Make it last and walk on the starlight  
Take me once, take my twice, take me all of the three times

Hey, in the time it took just to mess around  
Hey, I'm lucking out can you take me down  
Take me out, take me down  
Feel the love and spread it around  
Take me out, out
