

Alive

Audrey Mika

Lost and found I've been up and I've been let down
Wanna give up and just get out, but I don't
Up all night, I've been fighting what's on my mind
Kinda feels like I lost the fight, but I won't

And I know, I know, I know it consumes me
But I won't, I won't, I won't let it hurt me
I know I got so much to be living for...

The higher I fly, the harder I fall, and maybe the highs are worth the lows
As long as I try, don't care if I fall
And maybe I'm lucky to be here at all
Yeah I know, I know, I know it consumes me
But I won't, I won't, I won't let it hurt me
I know I got so much to be living for...

Found my home with the people I love the most
On my own but I'm not alone, anymore
Better today than I was only yesterday
And if I could turn back time, I wouldn't change anything
I have everything I need

Yeah I know, I know, I know it consumes me
But I won't, I won't, I won't let it hurt me
I know I've got so much to be living for...

The higher I fly, the harder I fall, but maybe the highs are worth the lows
As long as I try, don't care if I fall, and maybe I'm lucky to be here at all
And I know, I know, I know it consumes me
But I won't, I won't, I won't let it hurt me
I know I've got so much to be living for
Better today than I was only yesterday
And if I could turn back time, I wouldn't change anything
I have everything, I need...

I've already made up my mind, I'm alive today and I know I'll be alright
I wouldn't change anything I've got everything I need...
