Audrey Mika

Will you be my best friend forever?
It's too easy when we're together
I've never been used to this
But I could get used to it

Call me on the phone
For a minute, I'm alone, for a minute, let's talk
I thought you should know
You feel like a second home
We could take a little trip, let's rock

Tell me, tell me what you want
I just wanna get involved with you
I don't wanna go
Somewhere you don't wanna roll
You're the one that I want

I didn't wanna believe in love
Gotta unlearn for the both of us
But you've never given up
(Given up given up)

Will you be my best friend forever?
It's too easy when we're together
I've never been used to this
But I could get used to it

We could talk about whatever
Watch movies on my home projector
You and me, a perfect fit
And I'm too cool with it
I'm too cool with it
I'm too cool with it
I'm too cool with it

Got me going crazy
Got me thinking out loud
Saying way too much and now you're freaking me out

I don't wanna fuck this up
I don't wanna fuck this up
You are my best friend

I didn't wanna believe in love
Gotta unlearn for the both of us
But you've never given up
(Given up given up)

Will you be my best friend forever?
It's too easy when we're together
I've never been used to this
