

# Chivalry

Audrey Mika

I like your kisses  
And I know that you love me  
No it don't make no difference  
If you're spending your money

I don't make time to tell  
You what you already know  
And you love that I  
I do all this shit on my own

I love buying my own roses  
I open my own doors  
Don't reach for the check  
I got it  
And I'll drive us back in the Porsche  
I just want you to hold me  
You know that that means more  
Don't need to spend your money  
'Cause you already know that I'm yours

Already know that I'm yours  
Know that I'm yours  
Already know that I'm yours

You always do the dishes  
And I think that it's lovely  
You help clean the mess in my head  
When I overthink and it gets ugly

I don't make time to tell  
You what you already know  
And you love that I  
I do all this shit on my own

I love buying my own roses  
I open my own doors  
Don't reach for the check  
I got it  
And I'll drive us back in the Porsche  
I just want you to hold me  
You know that that means more  
Don't need to spend your money  
'Cause you already know that I'm yours

Already know that I'm yours  
Know that I'm yours  
Already know that I'm yours

Chivalry is dead  
And I'm ok with that  
I'm my own gentleman  
So let's bring it back to the bed

Chivalry is dead  
And I'm ok with that  
I'm my own gentleman  
So let's bring it back to the bed

(Chivalry is dead)
