

Yeah, we know, moments like these don't last forever
Go slow, the sun's gonna set when the night is over
I know, I can't get too close or I'm gonna get burned
I want your love but without the hurt

Circles map the route around my head
Mental, somebody I won't forget
Fatal, need you like a cigarette
Can't let you inside my head, just for the moment

If we were alone, we were alone
Are you taking me home, taking me home?
'Cause I gotta know, I gotta know
If it's just for the moment
No guarantee, no guarantee
Of what we could be, what we could be, yeah, yeah
Don't need to think 'bout anything, yeah

'Cause it's not like we're in love, love, love, love
Not like we're in love, love, love, love
Not like we're in love, love, love, love
Not like we're in love, love, love, love

We could take a little bit of time if you wanna
You could take me out but I'm no prima donna
I can wear that dress, take it off if you wanna
Don't you wanna?
We can make it hot, heat it up like a sauna
Say it like a prayer, I could be your Madonna
Anyway you like, take it off if you wanna
Don't you wanna?

Circles map the route around my head
Mental, somebody I won't forget
Fatal, need you like a cigarette
Can't let you inside my head, just for the moment

If we were alone, we were alone
Are you taking me home, taking me home?
'Cause I gotta know, I gotta know
If it's just for the moment
No guarantee, no guarantee
Of what we could be, what we could be, yeah, yeah
Don't need to think 'bout anything, yeah

'Cause it's not like we're in love, love, love, love
Not like we're in love, love, love, love
Not like we're in love, love, love, love
Not like we're in love, love, love, love
