

# Pure

Audrey Mika

You tossed up my life like a piece of salad  
I wish it was like before I made it me  
I'm not that naïve, think before you share it  
But I'm not gonna share it with the world  
These children, they've got  
They got it easy  
Their life is so pure before they realize  
That life is too short to keep your dreams awaiting  
Don't keep them waiting  
Don't recommend it

I'm just a band-aid that feels it  
I'm feeling like I'm frozen  
But no one would get me  
I'm tripping, need to take a break

Baby, I'm running from myself  
Don't catch me  
Need to do this on my own  
'Cause we're one of a kind  
We mess up our minds  
And think that we suck  
So why couldn't it just be pure?  
Why couldn't it just be pure?

I'm done  
Can't do this anymore  
Catch me  
I'm falling on your floor  
You said it before  
You can't do it all alone  
Why can't it all just be pure?  
Why can't it all just be pure?  
Why can't it all just be pure?

I'm feeling divine  
Wanna take it easy  
Pray for my life  
Before I cry to sleep  
Too young to give up  
But I'm really tired  
(Ok, then don't be tired)  
(Yeah, yeah)

I'm just a band-aid that feels it  
I'm feeling like I'm frozen  
'Cause no one would get me  
I'm tripping, need to take a break

Baby, I'm running from myself  
Don't catch me  
Need to do this on my own  
'Cause we're one of a kind  
We mess up our minds  
And think that we suck  
So why couldn't it just be pure?  
Why couldn't it just be pure?

I'm done  
Can't do this anymore  
Catch me  
I'm falling on your floor  
You said it before  
You can't do it all alone  
Why can't it all just be pure?  
Why can't it all just be pure?
