

Rough

Audrey Mika

It's hard to even bring it up
As fragile as a paper cup
But things, they can get real good
But never last for long
And things, they might feel real good
But I never been so alone
Never been so alone

It's not a thing people talk about
A fake face is what you're all about
But babe you can walk around
And pretend like you're okay
'Cause babe you can take it off
You can take off your fake face
Change won't spark
(You can take off your fake face)
But a light could burn
I'm just lonely in my brain

I'm wishing for the best
Did you hear me? What I'd said?
Said, "I'm wishing for the best"
And I'm wishing for the best
I'm a lonely, lonely mess
And I'm wishing for the best
For you, too
I'm wishing to be

I'm on my own in the deepest time, no
Too scared to even go out and fall apart
And me, I get messed around
And pretend like I'm okay
But when, when I go back home
I would sleep all my days away
There's a feeling (waiting)
What all are waiting for
I'm no one except myself
When I'm alone

And I'm wishing for the best
Did you hear me? What I'd said?
I said, "I'm wishing for the best"
And I wishing for the best
I'm a lonely, lonely mess
And I wishing for the best
For you, too

No, no, no
And change goes by
But I'm like good-bye
I'm just lonely in my mind (yup)
