

## Top Layer

Audrey Mika

(Roll the credits!)

I'm listening but didn't hear a word ya said (a word ya said)  
Because it all sounds the same in my head  
It's hard not to feel that  
Well, did you ever think that it was also hard for me  
You didn't know, yea  
I know sometimes it's hard to talk about it all  
It's hard to believe it, oh

Would ya, ever, wanna tell me something  
Deeper, than a, well underground  
I'm not scared of what the real you looks like  
Cuz it's just me

Do you hear my voice, hear it nice and loud  
You'd take my advice before I use it myself  
You gotta dig a little deeper  
Baby I, baby I  
You're inspired  
By the hope that I give  
Not just top layer  
Cuz I know we're imperfect  
You heard me, we're all a bit outta place yea  
More layers, not just top layer

(Just tell me already! Tell me!)

I wanna help you but you gotta talk to me  
And listen to every word that you say and mean  
Not hard to believe it  
I'm gonna make it easier to say what's on your mind  
Gotta let go  
Cuz it won't change the way I look at you  
You're doing fine, doin fine

Deeper, than a, well underground  
I'm not scared of what the real you looks like  
Cuz it's just me

Do you hear my voice, hear it nice and loud  
You'd take my advice before I use it myself  
You gotta dig a little deeper  
Baby I, baby I  
You're inspired  
By the hope that I give  
Not just top layer  
Cuz I know we're imperfect  
You heard me, we're all a bit outta place yea  
More layers, not just top layer

Not just top layer  
Not just top layer  
Mmm...  
(Yay)
