

When

Audrey Mika

Been told so many times
You can't change the past because it doesn't really last very long
Reminded by photos
Lookin' at my life before I broke it into pieces of pie
Don't wanna be this way
Fallin', fallin' into the blue
People change and that's ok
Hard to believe even harder to see

I'm walking a fine line
I'm walking the story of my life
I'm feeling crosseyed
To rescue the places that I used to know

So la dee dah dah
Words that I love
You don't even need to understand it
You'll just change every minute if I share you my love
But I don't really care if it means that you're here
Trust me
When I tell you and say that I love you
Cuz you just about broke every minute
Foolish to think that it's all about me
Yea, it's foolish to think
That it's all about me
It's foolish, it's foolish to think
Foolish to think

Sometimes I don't wanna care
Drowning your words, with the sound of my nerves every time
Took so long to turn around (took so long)
Are you holding fast
Can you catch me if you can
You did those things alone
Tell me, tell me, tell me when you did

I'm walking a fine line
I'm walking the story of my life
I'm feeling crosseyed
To rescue the places that I used to know

So la dee dah dah
Words that I love
You don't even need to understand it
You'll just change in a minute if I share you my love
But I don't really care if it means that you're here
So trust me
When I tell you and say that I love you
Cuz you just about broke every minute
Foolish to think that it's all about me yea
It's foolish to think
It's all about me
Yea yea yea
Alright
Ok
Foolish to think
About me

Foolish to think
About me
