Audrey Nuna

I'ma pick your head up

With the polyester  
You know it's really good after all  
With a honey butter and your pretty brother

He knows I try  
Stood on the corner right by the American border  
I knew you would pick me up

You know it's really good  
Gotta get your head up

Gotta get your head up  
You know it's really good

God knows I try  
He knows I try  
Stood on the corner right by the American border  
I knew you would pick me up  
God knows I try  
He knows I try  
Forget all the things that they say about me  
It's you that I see  
Don't forget that I'm the one  
Don't forget that I'm the one
