

-le! I need that money bae, I need that multigrain
Before you get that beat down, keep it moving
Ándale! I need that money bae, I need that multigrain
Before you get that beat down, keep it moving

I get checks overseas, I got money to blow
Like I'm Adele on the beat, rolling deep on the low
Money in the bag, it's a stick up
NUNA in the back with the Bentley coupe
Hundred on the dash, can you keep up?
Grand Budapest, steal that picture, yeah

We don't mess around, we don't play around
We don't round about give a fuck
Said it once, so don't do it twice
So watch your mouth and don't test your luck
We don't mess around, we don't play around
We don't round about give a fuck
So tell me, are you stupid, are you dumb?

-le! I need that money bae, I need that multigrain
Before you get that beat down, keep it moving
Ándale! I need that money bae, I need that multigrain
Before you get that beat down, keep it moving

I like the way La Mer feel on my face
Like the way you talk
I like the way moonlight hit Fendi chain
Like the way we sticking
Cartier studs on the Levis
Got the Mont Blanc pen for the rewrites
Better say it to my face, no DeVry
Tiffany eight-piece when it's tea time

'Cause we don't mess around, we don't play around
We don't round about give a fuck
Said it once, so don't do it twice
So watch your mouth and don't test your luck
We don't mess around, we don't play around
We don't round about give a fuck
So tell me, are you stupid, are you dumb?
