

Space

Audrey Nuna

I'm undercover
I'm underwater
But I didn't notice
'Cause I was too focused
On all of the tokens
I wanted the bonus
I shot the valet
He parked in my space

Space, space
I just need some space
Space
Don't make me the one to say it
Don't make me the one to say it 'cause I can't come down
I'm only human now

I just need some
Space, space, space
I just need some
Space, space
I just need some
Space, space, space
I just need some
Space, space

Sick of the cinema, I'm burning Hollywood
I am the carpenter's daughter, you know I could
My heart is slowing 'cause all of the fast food
I flush it down 'cause I know that I have to

I just need some space, space, space
I just need some space, space
I just need some space, space, space
I just need some space, space

I'm only human, human, human
Human, human, human
Human, human, human
No, no
Human, human, human

Space, space, space
I just need some space, space
I just need some
