

Time

Audrey Nuna

I got a trap star in the back yard
And all he wanna do is talk
I got silk rags in the back
Car keys in the trash
I got motel sheets form the seven seas
Brimming with the finery
I got Wall Street wannabes
Waiting upstairs for me

Forewarning in my fortress
And my nemesis, he's approaching
And I'm safe here and I know that
But I just need to find my way down
Find my way down, mmm
And lately I'm floating
Out the window, out of focus
And you're holy and I know this
But I just need to find my way down, down

I just need time
I'm gonna make it mine
I'm gonna make it mine
I just need time
I'm gonna make it mine
I'm gonna make it mine

I got a rap star on the patio
And all she wanna do is smoke
I got kiddies and their mommas in the pool
Playing freeze tag
What do the sea and sky and I have in common?
Do the sea and sky and I have in common?
Sea and sky and I have in common?

Ooh, I just need time
I'm gonna make it mine
Gonna make this whole damn world mine
I just need time, oh
I'm gonna make it mine
I'm gonna make you mine

What do the sea and sky and I
Sea and sky and I
Sea and sky
