

## 500 Days

AUGUST 08

Got my heart broken in Vegas  
She was dancing I was the last one to leave  
Owner told me that I look famous  
But if I stay another minute I'm resting in peace

She told me meet her at her car  
Don't need to start a fight  
That she'll be out soon  
The sun barely woke up  
While I'm driving she rolls up

I feel like it's 500 days I'm with her  
January past December  
Cliche like dancing for your tuition  
Ain't no striking out, I won't miss this  
Eyes glisten like the stars in a Wraith  
Electricity whenever I kiss you  
But this is not how I wanna spend my days  
I can't wait till night comes just to mmm mmm mmm

She don't cry, she don't fuss, she don't lie  
I'm a Capricorn, she a dollar sign  
When I'm calling she pick up  
Home is waiting for us  
Yeah, oh yeah yeah  
She don't trust, she don't love, she don't fight  
She woke up to me needed her for more  
I'ma letting her go  
I don't do shit for sure

Feel like it's 500 days I'm with her  
January past December  
Cliche like dancing for your tuition  
Ain't no striking out, I won't miss this  
Eyes glisten like the stars in a Wraith  
Electricity whenever I kiss you  
But this is not how I wanna spend my days  
I can't wait till night comes just to mmm mmm mmm
