

# Blow

AUGUST 08

Treat me like the man you always wanted  
Wake me up with eggs and toast and porridge  
Careful with your words, but you're not boring  
I'm the only heart you wanna pour in

From the late nights till the morning  
I'm your silence from the world  
It's our life we're scoring  
So I relax to the drama

Let the sun in, let the wind blow  
Don't worry 'bout a thing  
That we cannot control  
You're medicine for me  
So I want you real close  
Lay back and let the sun in  
Let the wind blow  
Let the wind  
Don't worry 'bout a thing  
Don't worry 'bout it  
Don't worry, let the sun in  
Let the wind blow

Talk about connection  
Deeper than the faultlines  
I pray for your protection  
Give it to me one more time

I feel like home when you're inside of me  
Breathing in tandem, no anxiety  
This skin to skin has got me crying  
This skin to skin has got me crying

Let the sun in, let the wind blow  
Don't worry 'bout a thing  
That we cannot control  
You're medicine for me  
So I want you real close  
Lay back and let the sun in  
Let the wind blow  
Let the wind  
Don't worry 'bout a thing  
Don't worry 'bout it  
Don't worry, let the sun in  
Let the wind blow
