

# Civilized

AUGUST 08

I got a mindless temper even on good days  
Not a bad influence, just want my way  
Drama, drama won't fade away  
After we kiss just go away  
She so Valley, oh my God  
Temper tantrums, the whole night  
Cigarettes, just need a light  
In the hallway, just need a lie like  
Woah, you be always home, but you never call  
Pick up your phone  
See you with your friends  
Broken promises, like you never had a home  
Now I'm real pissed, don't wanna hear shit  
Broken mirrors on the floor  
Now I'm actin' out on this plane  
Like nigga fuck that sound

Fuck bein' civilized (Fuck, fuck)  
I don't give a damn I'm out of my element  
Man I feel it all the time  
Bear witness to the fire burnin' all around you  
Fuck bein' civilized (Fuck, fuck)  
This the type of shit that make me wanna (Ahh)  
Fuck bein' civilized  
Fuck bein' civilized (Fuck, fuck)

I'm more Coldplay than Dwele, I'm more Michael than Regis  
I'm more good in these streets, than a lot of you niggas  
I'm not calling for peace, I'm keeping it up  
You awake in the streets, I'm heatin' it up  
You outdated and jaded, just standin' in the way  
We workin' 'til the sun, just thank God for the day  
Swervin' fast in the whip, screamin' "fuck what you say"  
Do this shit for my mama, she on her feet every day  
You got love for me, hoes for me  
Trust for me, dope for me, even though we never seen it  
Roll down the window it look like  
Goddamn everything that I ever needed (Yeah)  
I been down, I been up, I lost friends  
That turned out to be faker than silicone  
Who know like we know, we survive around the hate  
That's why I screamin' out

Fuck bein' civilized (Fuck, fuck)  
I don't give a damn I'm out of my element  
Man I feel it all the time  
Bear witness to the fire burnin' all around you  
Fuck bein' civilized (Fuck, fuck)  
This the type of shit that make me wanna (Ahh)  
Fuck bein' civilized  
Fuck bein' civilized (Fuck, fuck)

Fuck, fuck  
Mm  
Fuck, fuck
