

Co-Star

AUGUST 08

Broken heart I keep paying the price
Leaving my love to the stars is to hopeful
Pressure why we put it on ice
Our signs don't match
So we just my be done for
All month we kept rolling the dice
Nobody ever fucked me like you did
Could you stay tonight
Compatibility was never right
So jump inside the car before you get asked
What you going for

But it match I might miss out
On someone else
You and I could both go bad
But no one knows
Are signs could be deceiving
You only fuck me when you need me
It makes me wanna not get close

If we match on co-star tonight
Cha baby there's no reason
I will leave you before sunrise
If we match on co-star tonight
Lil baby I can see me falling
Right here before my eyes

Our love is unusual so come and
Do me how you want

Let's just let it flow and take our time
Always want control I might be your vice
Play and say I'm usual not your type
Love a good surprise
And it only gets better by the night
Imma start an argument a fight
Just to bring us closer
Is it love is fate can't decide
Call me up there is no better time
I got no patience and people are back outside

But it match I might miss out
On someone else
You and I could both go bad
But no one knows
Are signs could be deceiving
You only fuck me when you need me
It makes me wanna not get close

If we match on co-star tonight
Cha baby there's no reason
I will leave you before sunrise
If we match on costar tonight
Lil baby I can see me falling
Right here before my eyes

Are love is unusual so come and

Do me how you want
