

Drive past your house at night  
You ain't been acting right  
Hoping your house is on fire  
But I don't wanna see you burn  
Maybe there's more to life  
I just don't do it right  
My set my car on fire  
Now you're all concerned

She says you're on an Egotrip  
All your reflections look nothing like you  
Nothing like you  
She says you're on an Egotrip  
She says this emptiness is nothing like you  
Nothing like you  
Time for ego death

When windows fog at night  
Who has your appetite  
I might stay here till the morning  
Another lesson learned  
Are you still gassing lights?  
Controlling and picking fights  
Shooting me down with no warning  
A lot for me to learn

She says you're on an Egotrip  
All your reflections look nothing like you  
Nothing like you  
She says you're on an Egotrip  
She says this emptiness is nothing like you  
Nothing like you  
Time for ego death

You're on an Egotrip  
All your reflections look nothing like you  
Nothing like you  
She says you're on an Egotrip  
She says this emptiness is nothing like you  
Nothing like you  
Time for ego death
