

Why has the sunlight come barging in, baby
How long did you keep me out?
Don't twist my words when I get close to you
Feels like I got you now

Slide let me know when you slide
Wanna make it out this house and fly
I don't wanna dim your light 'cause

I can't take the heartbreak
It's killing me, caught me in a dark place
Pour energy, see me through the heartache
Till the morning
Till the morning
I can't take the heartbreak
It's killing me, caught me in a dark place
Pour energy, see me through the heartache
Till the morning
Till the morning

Drive later tonight
Give me your keys 'cause you change your mind
At the speed of light
Oh, why you do me like that?
You don't play fair, you bend the rules
And I don't like that
So tell me when you slide

Let me know when you slide
Wanna make it out this house and fly
I don't wanna dim your light 'cause

I can't take the heartbreak
It's killing me, caught me in a dark place
Pour energy, see me through the heartache
Till the morning
Till the morning
I can't take the heartbreak
It's killing me, caught me in a dark place
Pour energy, see me through the heartache
Till the morning
Till the morning
