

I can see your old house from here  
Doesn't feel the same without you near  
We used to chase down stars in the dead of night  
Drinking E&J blowing on a Paradise  
I can see your old house from here

Remember when we used to wake the neighbors up  
Turned the projects to a damn nightclub  
And we laughed about it on the next day  
How they shot it up but we got away  
But we swore we never would grow up

Let's go back to when we lost our house and the minivan  
Take me back to when we were younger  
Take me back again  
Those sleepless nights in the minivan  
I'll do anything  
For a day in the DeLorean

A lot of enemies have disappeared  
Either they're dead or locked up for years  
But don't it feel like yesterday  
When you told me that your father ran away  
I can see your old house from here

Let's go back to when we lost our house and the minivan  
Take me back to when we were younger  
Take me back again  
Those sleepless nights in the minivan  
I'll do anything  
For a day in the DeLorean  
For a day in the DeLorean

I still see my mother crying  
If only I could turn the lies back on

Let's go back to when we lost our house and the minivan  
Take me back to when we were younger  
Take me back again  
Those sleepless nights in the minivan  
I'll do anything  
For a day in the DeLorean  
For a day in the DeLorean  
For a day in the DeLorean
