

On Occasion

AUGUST 08

Let me down like you do
Breaking down in a coupe
Is there hope for us?
Late night drives on the road
You're always this close to gone
(I don't even wanna bother with you) Now I just wanna
Drown myself in change
If we can't work with this
Tell me it's alright 'cause we can let it go tonight

This whole time, thought you were mine
Down to sacrifice but I can't deny

You only want me on occasion
What a sticky situation
You only want me on occasion
You only hit me when you need someone
And that's all I want
Let me know

Shove me out of the way just to get in my face
There's no hope for us
We both won't love but we can't
We just don't know how to change
(I don't even wanna bother with you) Now I just wanna
Fill my lungs with smoke
Should I let this go?
Tell me it's alright 'cause we can let it go tonight

This whole time, thought you were mine
Down to sacrifice but I can't deny

You only want me on occasion
What a sticky situation
You only want me on occasion
You only hit me when you need someone
And that's all I want
Let me know

Yeah
Yeah
Let me know
Yeah
Yeah

You only want me on occasion
What a sticky situation
You only want me on occasion
You only hit me when you need someone
And that's all I want
Let me know
