Simple Pleasures

AUGUST 08

You could talk at me like you're faithful
Even treat the truth like it's so painful
When you're back with him it doesn't feel right
A night with me's your only highlight

Don't take this shit too serious
Erase me from your memory
Cause it was nothing more than a simple pleasure
Nothing more than pleasure but

You had to go and get some feelings
You had to go and get some feelings
You had to go and get some feelings
You had to go and get some feelings (feelings) feelings

Y'all supposed to rag and wear it sometimes
Y'all supposed to rag and wear it sometimes

Just be with your guy and when he come back
Don't hold onto pride, you'll lose me like that
Don't take this shit too serious
Erase me from your memory

Cause it was nothing more than a simple pleasure
Nothing more than pleasure but

You had to go and get some feelings
You had to go and get some feelings
You had to go and get some feelings
You had to go and get some feelings (feelings) feelings

Get some feelings
Get some feelings
You had to go and get some feelings
Get some feelings (feelings) feelings (feelings)

You had to go and get some
You had to go and get some
You had to go and get some
You had to go and go and
You had to go and get some
You had to go and get some
You had to go and get some

(Why'd you have to go)

You had to go and get some
You had to go and get some
You had to go and get some

(Why'd you have to go)

You had to go and get some
You had to go and get some
You had to go and get some
You had to go and get some feelings
You had to go and get some feelings

You had to go and get some feelings
You had to go and get some feelings (feelings) feelings (feelings)
