

Forever and a Day

August Alsina

They say never say never
But girl, I swear that forever
Look at you, I'm never gonna let you go
As long as we stay together
Baby, I'm down for whatever
If you want forever, baby, let me know

Now we know it ain't a secret
That I've been watching and peeping
The way you run your little games so cold
But I've been patiently waiting
To get this chance that I'm taking
To come over here and let you know
I promise I ain't what these niggas on
Not tryna gas you up and tell you what you wanna hear
Girl, I'm just tryna ride the wave that you be on
Girl, ain't you tired of playing? Bring that body over here

Lemme show you what you missing
Cover you with kisses (Oh)
Turn you to my Mrs
And try every position (Never)
I swear it don't get no better
With me and you and together (No)
Girl, I love it
Hope it feels like this forever and a day (Feels like)
Do you think- (Oh, oh)
Do you think in the morning (Do you think in the morning)
We gon' feel the same as yesterday? (Yesterday)
Or even after tomorrow (After tomorrow, yeah)
Hope it feels like this forever and a day

I know we'll take it if one day had a turn
But I gotta let you know you stay on my mind
Had a feeling you already know
And when it comes to feelings, girl, I ain't afraid to show

Now we know it ain't a secret
That I've been watching and peeping
The way you run your little games so cold
But I've been patiently waiting
To get this chance that I'm taking
To come over here and let you know
I promise I ain't what these niggas on (I ain't these other niggas)
Not tryna gas you up and tell you what you wanna hear (I ain't, I ain't)
Girl, I'm just tryna ride the wave that you be on
Girl, ain't you tired of playing? Bring that body over here

Lemme show you what you missing (Oh-oh-oh-oh-oh)
Cover you with kisses (Oh)
Turn you to my Mrs
And try every position (Any way you like it, babe)
I swear it don't get no better (Better)
With me and you and together ('gether)
Girl, I love it
Hope it feels like this forever and a day
Do you think in the morning (Do you think in the morning, morning, morning)

We gon' feel the same as yesterday? (Yesterday)
Or even after tomorrow (After tomorrow, oh babe)
Hope it feels like this forever and a day

Do you think in the morning (Do you think in the morning, morning, morning)
We gon' feel the same as yesterday? (Yesterday)
Or even after tomorrow (After tomorrow)
Hope it feels like this forever and a day
