I don't know about your friends
But I love my bros, closer than close
They held me down, they never let me go
That's why when I go across the water
Bring my dogs to the show
I keep my riders by my side
I'm touching every coast
What I love the most, I ain't gotta question nothin'
If they being loyal, wonderin' what they doing for you
Through it all they kept it silent
I'm gon' have they back regardless
If I got a hundred dollars or a hundred million
Them my hittas, Ima hit it to, that make us some killas

Do you really got friends?
Do they really got your back?
Do they tell you that they love you?
Would they die for you? Get whacked
Do you really got some niggas that's gon' ride for you like that?

Do you really got friends?
Do you really got friends?
Do they really got your back?
Do they tell you that they love you?
Would they die for you? Get whacked
Do you really got some niggas that's gon' ride for you like that?
Do you really got friends?
