

Longer

August Alsina

I thought about her
I thought about you
They know about her
They know you the, truth
Tell nobody, body, body, no
Nobody know, yeah, yeah

How bad do you want it?
How bad do you want it?
Baby ride like a pony
Scream loud if you want it
How bad do you want it?
How bad do you want it?
The motion you want it
The more I want it

See all I think about, all I think about
Wish I could stay in town (Just a little more longer)
She always on my mind, she always on my line
If I just had some time (Just a little more longer)

I'd be on it every day, I'd be on it every day
(Just a little more longer)
I need it every day, I need it every day
(Just a little more longer)
I'd be on it every day, I'd be on it every day
(Just a little more longer)
I need it every day, I need it every day
(Just a little more longer)

Oh yeah, you (Yeah)
You got me and I got, you
So tell your exes, that I'm the one you, choose
Tell nobody, body, body, no
Nobody know, yeah, yeah

How bad do you want it?
How bad do you want it?
Baby ride like a pony
Scream loud if you want it
How bad do you want it?
How bad do you want it?
The motion you want it
The more I want it

See all I think about, all I think about
Wish I could stay in town (Just a little more longer)
She always on my mind, she always on my line
If I just had some time (Just a little more longer)

I'd be on it every day, I'd be on it every day
(Just a little more longer)
I need it every day, I need it every day
(Just a little more longer)
I'd be on it every day, I'd be on it every day
(Just a little more longer)
I need it every day, I need it every day

(Just a little more longer)
