Myself

August Alsina

Allow me to introduce myself
I'm just a young nigga from the boot myself
I'm livin', but I done been through too much hell
Ain't no surprise that I never tried to shoot myself
I stayed real and I ain't tryna fool myself
Navigated out the jungle, didn't lose myself
Never forgot what I had to do myself
When I only had me, myself and I, do or die

I did and lived
Been with the shits
I ain't have a fuck to give, busy hittin' licks
I took some L's
I took 'em well
Had the world shootin' at me but it fuckin' missed
All my stripes earned
Now it's my turn
Set the world on fire, let every bridge burn
You keep it real with me, I keep it realer
But if you fake and in my face that's why you unfamiliar

I thought I told y'all niggas I don't know y'all niggas
Where I'm from, we stack and pray to dodge the graveyard nigga
Round the way, my nigga
It ain't safe, my nigga
I know four or five hittas that'll lay y'all niggas (Down, down
, down)
You won't make a sound (Sound)
Put you on a T-shirt and put you in the ground
And I fuck on yo' main bitch who used to hold you down
Thought you had me figured out
Really you don't know me now
You don't know me now

Allow me to introduce myself
I'm just a young nigga from the boot myself
I'm livin', but I done been through too much hell
Ain't no surprise that I never tried to shoot myself
I stayed real and I ain't tryna fool myself
Navigated out the jungle, didn't lose myself
Never forgot what I had to do myself
When I only had me, myself and I, do or die
