

# On Me

August Alsina

You was down, when I didn't have, watchin' my back when I needed that  
Kept it real 'fore I had a deal, never changed up and that's big facts  
Through it all you were consistent, hope you don't ever think I would forget  
that

Never forgot where I came from, go as hard as I do not to get back

Now let's change up the view  
Out with the old baby, in with the new  
Switch up the clothes and the shoes  
Don't have to look at the tag, girl, you deserve that  
You started off as the homie  
Took the time to get to know me  
Elevated to my one and only  
Now that we finally made it, it's on, whatever you want

Foreign whips (On me), expensive trips (On me)  
Ice your wrists (On me), girl, you know that it's (On me)  
Cuban chain (On me), girl put everything (On me)  
Even tatted your name (On me), I got your back (On me)  
That's my word, put that on me (On me)  
If I eat, we eat (On me), long as I got a bag (On me)  
Girl, you can put it on me  
That's my word, put that on me (On me)  
If I eat, we eat (On me), long as I got a bag (On me)  
Girl, you can put it on me

Down for a bitch since way back [?]  
Come a long, long way from the hot mess  
Now they all wanna see how we livin'  
We ain't worried 'bout what they got  
LV's on the bag (Run up the status)  
Corner store watch to a Patek  
Walk in the mall if we like it, we grab it  
I like seein' my baby in karats

Now let's change up the views  
Out with the old, baby, in with the new  
Switch up the clothes and the shoes  
Don't even look at the tag, boy, you deserve that  
You started out as the homie  
Took the time to get to know me  
Elevated to my one and only  
Now that we finally made it, it's on, whatever you want

Foreign whips (On me), expensive trips (On me)  
Ice your wrists (On me), boy, you know that it's (On me)  
Cuban chain (On me), put everything (On me)  
Even tatted your name (On me), I got your, bae (On me)  
That's my word, put that on me (On me)  
If I eat, we eat (On me), long as I got a bag (On me)  
Girl, you can put it on me  
That's my word, put that on me (On me)  
If I eat, we eat (On me), long as I got a bag (On me)  
Boy, you can put it on me

On me (On me)
