

## Other Side

August Alsina

As the days go by  
I remember we was sitting on the aisle  
Wish I could take it back to the days we lost  
But it's easier said than done, someone had to pay the cost  
I know nothing lasts forever, no nothing at all  
Sometimes you don't ever get back up after you fall  
Every day's a gamble  
I know you can't win them all  
But that don't stop the hurt at all

One time for my fallen soldiers that were lost in war  
Two times for my gangstas who where here but is no more  
Three times for them fathers that ain't tryna do for their kids  
Never thought that missing you would ever feel like this

I hope I see you on the other side  
So we can kick it like we did before  
I hope you leave a little room on the other side  
So I know I got somewhere that I can go  
I hope I'm not banging at the door saying let me in  
And I pray that I'm forgiven for my sins  
And I see you on the other side  
Hope I see you on the other side

I heard real niggas don't cry 'til I seen real niggas who died  
I ain't gon' lie, I had real tears in these eyes  
Made me feel something inside, seem like I'm gon' lose myself  
If I knew somebody else, I'm gon' need somebody else

One time for my fallen soldiers that where lost in war  
Two times for my gangstas who where here but is no more  
Three times for them fathers that ain't tryna do for their kids  
Never thought that missing you would ever feel like this

I hope I see you on the other side  
So we can kick it like we did before  
I hope you leave a little room on the other side  
So I know I got somewhere that I can go  
I hope I'm not banging at the door saying let me in  
And I pray that I'm forgiven for my sins  
And I see you on the other side  
Hope I see you on the other side

Remember all the good times we had  
It's so sad cause we can't go back  
Now all we got are old times, throwbacks  
Now you stay forever on my mind, see you on the other side  
Remember all the good times we had  
It's so sad cause we can't go back  
Now all we got are old times, throwbacks  
Now you stay forever on my mind, see you on the other side

I hope I see you on the other side  
So we can kick it like we did before  
I hope you leave a little room on the other side  
So I know I got somewhere that I can go  
I hope I'm not banging at the door saying let me in

And I pray that I'm forgiven for my sins  
And I see you on the other side  
Hope I see you on the other side  
I hope I see you on the other side  
So we can kick it like we did before  
I hope you leave a little room on the other side  
So I know I got somewhere that I can go  
I hope I'm not banging at the door saying let me in  
And I pray that I'm forgiven for my sins  
And I see you on the other side  
Hope I see you on the other side
