And I love making it rain for her, get her wetter than a rain forest
Twerk game is ferocious, Love to see you in motion
Make a nigga want to suit up and dive in that ocean
I love that she so focused, I know she probably don't know this
But I see you hustling Baby you deserve a promotion

Salute ya girl get that paper, and don't be worried about no haters
That just means your doing something right
You know they hated on the greatest
On your feet for the whole night, you gotta go home to the babies

Have you seen light, he just want to fight,
cause he ain't been getting no paper
Stressed out, still hold on, cause you know life get better
Can't see it now but in the long run, you know a nigga gonna thank you
Foreal, shawty going hard like she tryna stack a mill
I just play my part, baby get it how you live.

She got money on her mind and shawty on her grind
I see she on a mission so I don't waste her time
Got a big house on the water, a car in her garage, a hundred bands in saving
