

# Us

August Alsina

Riding with the roof down, never put it up (Up)  
Cruising through the city, we ain't never in a rush (Rush)  
I remember you and me together was enough  
Tryna come around, I think it's time that they cut, cut

All we got is us (All we got is us)  
All we got is us (All we got is us)  
So let's live it up (Up)  
Champagne, sip it up (Up)  
We get and give it up (Up)  
So now that the money up (Up)  
Baby, all we got is us

All I got is you  
And girl you got me forreal  
'Cause you kept it true  
Girl, for you I'd kill

Anyone saying that you and I ain't made for this  
Anyone who disrespecting what we paid for this  
They don't understand the sacrifices we gave for this  
They ain't see me on them nights that I would pray that you  
Be able to, see the destination I would make it to  
Hoping that you wouldn't get impatient  
But you stayed 'til we got the better days, now we...

And they want what we got  
They keep taking they shots  
But we know that it's for nothing  
And we good on our own  
Could've left it alone  
But now we're still going strong  
(Ooh, yeah, believe that)
