August Burns Red

This is our burden
The pain we endure

We must carry it together
It will soon become a memory
It's staring us in the face
but we just turn the other way

Take the easy route while millions of people's homes fall to the ground
Merciless and unforgiving as it sets us back
The truth could bury us all in the end

You and I walk carefully
As we lighten our step and hope that our tracks just disappear
We don't want to leave an imprint
This can't be what we're known for

I'll leave the world as it was given to me
Flowing full of life, filled with diversity
I'll leave the world as it was given to me
Flowing full of life, filled with diversity
I can look with pride in my child's eyes
And he will know
I helped preserve what may have died
And he will know
What I've done
(He will know, he will know)

We will look ahead
The trail I've left won't lead the history books
Right back to me, right back to me
This generation won't let it all
Just slip away, slip away
Don't let it slip away

I'll walk forward and sense the ground beneath me
The choice is mine, I need to make the right one
The earth may remember what we have done
The choice is mine, I need to make the right one
