

Recipe

Aura Dione

Hold me like I'm a baby
I will always be safe in your arms
All fell in and I am dreaming
I'm humming my way to the stars

I can reach the stars from where I am
I can reach the stars from where I am

Tell me, what is the recipe
Secret of eternity
No more love me or leave me
Not a year
Not three or four
Forever is in my heart
With you evermore

Stand by me I am your baby
You will always be safe in my arms
This season I don't think about reasons
I just wanna lose it and wish upon a star

I can reach the stars from where I am
I can reach the stars from where I am

Tell me, what is the recipe
Secret of eternity
No more love me or leave me
Not a year
Not three or four
Forever is in my heart
With you evermore
Uuh uuh uuh uuh

Uuh, we can take it far
To the morning star
Thousand children laughing in your eyes
Uuh, you were made for me
Baby can't you see
Endless sky is filled with butterflies

Tell me, what is the recipe
Secret of eternity
No more love me or leave me
Not a year
Not three or four
Forever is in my heart
With you evermore
Uuh uuh uuh uuh
