

Talk Of Nothing

Aura Dione

I will be your indian lover
Strip away the flesh down to the bone
Every cell in you is gonna shiver
I will be your mirror of the sun

We're not waiting for a better life
We are young and we're unbroken
We don't ever have to compromise
I'll never let you go
That's all I ever know

The hardest thing to say
I admit it
The hardest thing you say
Live like you mean it so
Take me out tonight
Let's get wasted
Release the part of your soul
And talk of nothing at all

I will be your Indian summer
Let it rain with gold down from the sky
Everything will shine when we're together
We will build a city
You and I

We're not waiting for a better life
We are young and we're unbroken
We don't ever have to compromise
I'll never let you go
What did we ever know

The hardest thing to say
I admit it
The hardest thing you say
Live like you mean it so
Take me out tonight
Let's get wasted
Release a part of your soul
And talk of nothing at all

The hardest thing to say
I admit it
The hardest thing you say
Live like you mean it so
Take me out tonight
Let's get wasted
Release a part of your soul
Release a part of your soul
And talk of nothing at all
Nothing at all
Talk of nothing at all
Nothing at all
Talk of nothing
