Purification Of Hell

Aura Noir

Gates of madness
Gates of harm
I long for yor endlessness
And to feel your blades

Vast sceneries drenched in blood A thousand fires that reek of death Halls of torment - let us in! We'll show them pain

Nightwarriors, I summon thee
It's time for bloodshed
Come on and rape the daylight
I want whores and untrue sons of Satan
Dead

Eternal furnace fireThe only light I need
No lambs of christ could take me higherIt's in hell that I must bleed
