

# Bite Marks

Au/Ra

You are everywhere  
Like wallpaper in my mind  
In my mind  
I need to take you down  
Quick before you take me out  
Take me out

I knew you'd rip me apart  
Left my heart with bite marks  
Knew you'd let me die hard  
Left my heart with bite marks

I gave you the knife and let you carve  
But then you had to leave me in the dark  
I knew you'd rip me apart  
Left my heart with bite marks

Left my heart with bite marks  
Left my heart with bite marks

We swam in cyanide  
We took the chance, we took the dive  
Spoiler alert, we die  
Coulda been so high  
But it was not for you and I  
You and I

I knew you'd rip me apart  
Left my heart with bite marks  
Knew you'd let me die hard  
Left my heart with bite marks

I gave you the knife and let you carve  
But then you had to leave me in the dark  
I knew you'd rip me apart  
Left my heart with bite marks

Left my heart with bite marks  
Left my heart with bite marks

I gave you the knife and let you carve  
But then you had to leave me in the dark  
I gave you the knife and let you carve  
And you carved, and you carved  
And you carved

But I knew you'd rip me apart  
Left my heart with bite marks  
Knew you'd let me die hard  
Left my heart with bite marks

I gave you the knife and let you carve  
But then you had to leave me in the dark  
I knew you'd rip me apart  
Left my heart with bite marks
