

# Hush

Au/Ra

Feel me now, I know that you can hear the crowds  
Outside your window, tapping on the glass  
Looking for a crack in your mind  
On the prowl, just for a chance to steal your smile  
I'm gonna keep them underneath your bed, out from in your head  
Close your eyes

Hush now, don't you cry

No tears when the night falls, when the night  
No fears, everybody shine  
If the roof caves in while you sleep tonight  
I'm gonna sing you a lullaby  
Hush, little baby, don't you cry  
I'm gonna kill your fears alright  
If the roof caves in while you sleep tonight  
I'm gonna sing you a lullaby

Dive deep, pool parties  
Streamers on your face, they love the taste of your dreams  
No more Zs, I know the feeling, watching the ceiling

Hush now, don't you cry

No tears when the night falls, when the night  
No fears, everybody shine  
If the roof caves in while you sleep tonight  
I'm gonna sing you a lullaby  
Hush, little baby, don't you cry  
I'm gonna kill your fears alright  
If the roof caves in while you sleep tonight  
I'm gonna sing you a lullaby

(Hush)

(Hush)

(Hush)

(Hush)

(They don't need to know)

(I know you can hear the crowds)

(Outside your window, tapping on the glass)

(Looking for a crack in your mind)

Hush, little baby, don't you cry  
I'm gonna kill your fears alright  
If the roof caves in while you sleep tonight  
I'm gonna sing you a lullaby (Hush)
