

## no future

Au/Ra

I don't wanna do this  
I don't wanna lose ya  
I just wanna hold tight  
Like we got no future  
Like we got no future  
Like we got no future  
Like we got no—  
Like, like we got no future

Bottle this moment up and put it down on ice  
Gotta catch lightning, you know it won't happen twice  
Wish I could cut and paste this right here a couple hundred times  
'Cause you're a storyline you know I could get behind

I don't wanna do this  
I don't wanna lose ya  
I just wanna hold tight  
Like we got no future  
Like we got no future  
Like we got no future  
Like we got no—  
Like, like we got no (Future)  
Sick of overthinking  
'Cause I know it's useless  
I just wanna hold tight  
Like we got no future  
Like we got no future  
Like we got no future  
Like we got no—  
Like, like we got no future

Wish I could save this game before we lose a life  
Wish I could carve this mousse so I could have a slice  
I wanna cut and paste these stars, throw them in every sky (Sky)  
'Cause if history repeats you know we will last the night

I don't wanna do this  
I don't wanna lose ya  
I just wanna hold tight  
Like we got no future  
Like we got no future  
Like we got no future  
Like we got no—  
Like, like we got no (Future)  
Sick of overthinking  
'Cause I know it's useless  
I just wanna hold tight  
Like we got no future  
Like we got no future  
Like we got no future  
Like we got no—  
Like, like we got no future

Don't wanna waste my time if the sun won't rise in tomorrow's sky  
We ain't gettin' outta here, let's stay  
Might as well die happy anyway  
Don't wanna waste my time if the sun won't rise in tomorrow's sky
