

# Outlaws

Au/Ra

Oh oh  
Oh oh

Running out the door aiming for the waist down  
Pulling up the car, boy we're on the run now  
Had to wide the roads, light the fuse and stand back  
All our hopes and dreams stuffed into this back pack

Oh, now that we got blood on our hands  
No, we'll never hide the contraband  
No, let me not surrender, if we go down its together  
I'm gonna make a stand

'Cause we are outlaws, wave your guns facing that forty-fives  
We are outlaws, know we're there taking our heart to life  
We got gold in our pockets and this love that we got  
Its beating in our chests like the wild wild west

See our faces on the posters by the roadside  
We were the ones that went long before the ink dried  
Well, we fugitives are running from the mundane  
You and I, we just want to live in this way

Oh, now that we got blood on our hands  
No, we'll never hide the contraband  
No, let me not surrender, if we go down its together  
I'm gonna make a stand

'Cause we are outlaws, wave your guns facing that forty-fives  
We are outlaws, know we're there taking our heart to life  
We got gold in our pockets and this love that we got  
Its beating in our chests like the wild wild west  
Give it up for outlaws, wave your guns facing that forty-fives  
We are outlaws, know we're there taking our heart to life  
We got gold in our pockets and this love that we got  
Its beating in our chests like the wild wild west

(like the wild wild west)  
(like the wild wild west)

'Cause we are outlaws, wave your guns facing that forty-fives  
We are outlaws, know we're there taking our heart to life  
We got gold in our pockets and this love that we got  
Its beating in our chests like the wild wild west  
Give it up for outlaws, wave your guns facing that forty-fives  
We are outlaws, know we're there taking our heart to life  
We got gold in our pockets and this love that we got  
Its beating in our chests like the wild wild west
