# Aphrodite Rising

**Auri**

I am coming for you
I am coming for you

I am coming for you
There's nothing you can say or do now
So don't try

It's written in this land
It's written in the stars
It's written in your heart

And I...

I am coming for you
I am coming for you so don't try
I am coming for you

Lights out, the night pours in
Catch me if you can
But you never will

Look deep, earthly deep
For I drift as you sleep
So surrender all
Oh surrender all

Arrival

There's nothing you can say or do now
So don't try

Arrival

It's written in this sand
It's written in the trees
It's written in the sea

And I...

I'm falling through the constellations
Oh, I am coming for you (arrival)
I am coming for you so don't hide

Lights out (lights out)
Lights out (lights out)
Lights out (but you never will)
Lights out

Arrival

I am coming for you
There's nothing you can say or do now
So don't try

It's written in this land
It's written in the stars
It's written in your heart

And I...

I am coming for you
I am coming for you so don't hide
