

## Fireside Bard

Auri

Close is the port where you await uncoffin'd  
Your call in the fire, and the crowd before me  
This music is a naked man  
Marking the world's milestones with stories  
With kisses from The Earth herself

On go rivers  
On goes the silent flow  
Come, my love  
Now it's calm enough to go  
Close the chord of the song uncared-for

It won't be too long now  
Dear crowd  
By this hearth I leave my notes on repeat  
And enter the deep with you

On go rivers  
On goes the silent flow  
Come, my love  
Now it's calm enough to go  
Close the chord of the song uncared-for

On go rivers  
On goes the silent flow  
Come, my love  
Now it's calm enough to go  
Close the chord of the song uncared-for
