

## I Will Have Language

Auri

I will have language  
Unlock the world and give me roads  
And sights you've forgotten  
My friends are the birds and my friends are the clouds  
And I drift out of fire  
From north, south, east and west  
I'm all that I hoped for  
Rivers and rain, no mark of Cain  
I see, I walk, I dive  
I think I am ready, I know I am ready  
I know I am ready

I will have language  
Unlock the world and give me roads  
And sights you've forgotten  
My friends are the birds and my friends are the clouds  
And I drift out of fire  
From north, south, east and west  
I'm all that I hoped for  
Rivers and rain, no mark of Cain  
I see, I walk  
I will have language  
I will
