

## Oh, Lovely Oddities

Auri

Enter, dear guest  
Have a seat by the Milky Way  
Flavours here are of memory and music  
Such is our cuisine

Deep green from the garden  
Starlight from the night sky  
Pink tea for a sad thought  
A kiss from the Earth itself

Emmer wheat is such a treat  
Scented smoke on purple beets  
Another course of pure goodwill  
Chanterelles from them thar hills  
Celebrate with a pint of ale  
Moonlit wine from the Holy Grail  
A memory from a happy past  
Spoonfuls of make-them-lasts

Deep green from the garden  
Starlight from the night sky  
Pink tea for a sad thought  
A kiss from the Earth itself  
Amrita with ambrosia  
A twelve-course fantasia  
We are the stuff of  
Lovely oddities
