

The Valley

Auri

You came down, walked with me fallow
You alone came to visit the lonely wanderer
Solely wandering
From which wind, I do not know, you arrived
On a tiny cat's feet, fragile dancer
With a lonely wanderer

Hear my friend, in the valley
Time crawls, but it's a merry wait
There is a tune to catch before I come

The creek is the drone, fire sets the tone
Spring tune, there you are, come visit the lonely wanderer
Solely wandering
I've invited the moon, memories, too
Endless cares and needs, for now, shoooo
Spring tune, so glad you came
To the lonely wanderer

Hear my friend, in the valley
Time crawls, but it's a merry wait
There is a tune to catch before I come

Hear my friend, in the valley
Time crawls, but it's a merry wait
There is a tune to catch before I come

Lost to the world until tonight
The needless claptrap made you hide
There's a valley ahead
To greet us with the journey's end

Hear my friend, in the valley
Time crawls, but it's a merry wait
There is a tune to catch before I come

Hear my friend, in the valley
Time crawls, but it's a merry wait
The tune has come, I'll play it once we meet
