In Boxes

AURORA

Calling out for the lonely
I'm going home
I've been doing awful things again
I hear them laughing in my head
I went out in the morning looking for a man
I could see it were the perfect one
Standing all alone

I've been walking ahead for a while
And dragging up body behind
My baby I had a good time
My baby I know you won't mind
Got them all collected in these boxes
Underneath my bed

Here I am still lonely with the souvenirs
I would kill for some company
Temporally
I did once have a lover only kept his hands
They can dance and play the songs for me
Play until I sleep

I've been walking ahead for a while
And dragging up body behind
My baby I had a good time
Got them all collected in these boxes
Underneath my bed
