

## Potion For Love

AURORA

When I lay in your arms, and our worlds can collide  
Into one atmosphere, we are here 'till we're not

When I see you again, as a stranger or a friend  
Could you give me a kiss from the past?  
Make it soft, make it last, like a lake in a glass  
Like an endless reminder of us

I don't feel love anymore  
And how it hurts when I walked out of the door  
Forgetting why we fell in love, hurts me the most

I recall our minds being strange and alike  
You were quiet the most, I would watch and explode  
With a storm in my mind, you would understand why  
They all name hurricanes after us

When I see you again, as a stranger or a friend  
I will give you a kiss from the past  
I will send you away, hoping you'll be okay  
With a piece of your heart living in mine

I don't feel love anymore  
And how it hurts when you walked out of the door  
Forgetting why we fell in love, hurts me the most

I don't feel love anymore  
And how it hurts when you walk out of the door  
Forgetting why we fell in love, hurts me the most
